

When the circus comes to town  
With the lions, the horses and clowns  
You'll have lots of fun  
Come and see with everyone  
You'll have the time of your life

The strong man lifts weights with one hand  
And the jugglers turn cartwheels and land  
You'll have lots of fun  
Come and see with everyone  
You'll have the time of your life

The trapeze artists fly overhead  
There is a ringmaster dressed all in red  
You'll have lots of fun  
Come and see with everyone  
You'll have the time of your life

See the clowns make everyone smile  
As they all fall down in a pile  
You'll have lots of fun  
Come and see with everyone  
You'll have the time of your life

When the circus comes to town  
With the lions, the horses and clowns  
You'll have lots of fun  
Come and see with everyone  
You'll have the time of your life
